

Imagination Club

In imagination club we have lots of fun thinking about fun things to design and make. We have lots and lots of Lego of all different colours and sizes and enjoy challenges like making a marble run. We also like to make things that move using Knex. We make up our own stories and put on shows using the puppet theatre. We also like to make amazing colourful models using the magnetic kits. Every week there is something different to play with. We often finish watching one of Mrs Gurr's stories on her You Tube channel.
