Reception Pupil Passport

Learning Together we can

Reach for the Stars

Reception Pupil Passport

At Race Leys Infant School, your child is on a 3 year journey from Reception to Year 2.

We want our children to learn together to reach for the stars. We offer a curriculum that is specifically designed to allow our children to meet the expected standards for their year groups.

Beyond the academic, we want our children to leave our school having experienced a range of enrichment opportunities that will create lasting learning memories and a life long fascination with building new adventures.

More about our Yearly offer

All of our children will take part in Enrichment activities throughout the year. Children will take part in Gardening, Cooking, Crafting, Outdoor Play, Coding, Sports and Performance. Children will have the chance to visit our school library throughout the year. They will also have the chance to save their money to visit our School Bookshop each week.

Before the children start their journey with us at Race Leys Infant School, we get in touch with their Nursery / Pre-School settings. Children are invited in to visit too so that 'Big School' doesn't feel so scary.
